Projects

FITNESS EXERCISE APP | *ReactJS, Tailwind CSS*

JAN 2024 - present

- Aim : To create a dynamic and intuitive Fitness Exercise App using React.js and Tailwind CSS, providing users with a personalized and engaging platform for their fitness journey.
- Description : The Fitness Exercise App is a cutting-edge application designed to revolutionize your fitness routine. Built with React.js and styled with Tailwind CSS, the app delivers a seamless and visually appealing experience. Users can access a diverse range of exercises, each accompanied by clear instructions and visual demonstrations.

PORTFOLIO WEBSITE | *ReactJS, Tailwind CSS*

DEC 2023

- Aim : To build a compelling narrative of my career, highlighting key projects, skills, and experiences that define my professional identity in [Your Industry].
- Description : As a Front-end Developer, I have created an online portfolio that serves as a comprehensive representation of my professional journey, skills, and achievements. This dynamic website is designed to showcase my expertise in ReactJS, and Tailwind CSS.

AGGREGATOR WEBSITE FOR CAREER DEVELOPMENT | *Tailwind CSS, MongoDB, ExpressJS* **JUNE 2023**

- Aim : The project is a website aimed at helping students prepare for placements. It has two main sections, view test patterns and mock test , and two types of users, Admin and Student.
- Description : The student-focused app offers access to test patterns from various companies, enabling users to study relevant material in the Practice section and take mock tests with reports in the Test section based on their chosen field.

EYE MOUSE | *Python, OpenCV*

MAY 2023

- Aim : Implemented feature matching algorithms, such as SIFT (Scale-Invariant Feature Transform) or SURF (Speeded-Up Robust Features), to identify facial features and match them against a database.
- Description : Successfully handled various challenges, including varying lighting conditions and facial orientations, resulting in an overall improvement of 20% in detection accuracy compared to traditional methods.

WEATHER APP | *HTML, CSS, JavaScript*

APRIL 2023

- Aim : A user-friendly and reliable application that provides real-time weather information and forecasts to its users.
- Description : WeatherApp is a user-friendly and reliable weather application that provides real-time updates, forecasts, and personalized weather information for locations worldwide.
